UTAH SHEITER COMPONISS

Continued from Seventh Page.

Avery much lower cost when it requires a continued of the continued of

est beds of cyanide ore ever found in Montana. Kendall is the site of the Barnes-King mine.

Articles of incorporation of the Rival Promoting Company of Maine have been filed with the Secretary of State by J. W. Riddon and others. The company, which has a capital stock of \$1,500,000, is the owner of the Gold Crown mining property in this county, including a forty acre mill site.

Recently G. H. Robinson, F. J. Chapman and B. F. Johnson arrived in Helena from New York and purchased all of the properties of the Tiger Gold and Copper Mining Company in Avalanche Gulch near here. On one of the claims of the company there is a vein of gold, sliver, lead and copper quartz having an average width of 20 feet. This ledge has been traced on the surface for more than 500 feet. The vein will be tapped by a tunnel at a depth of 300 feet and drifts run in both directions. The ore is of high grade in both lead and copper, \$1 \times in gold and a smaller amount in silver.

The same party visited the Elkhorn district and examined the work on the Woodland Park property, which is owned by the General Mines Company, in which they are directors. The shafts are all in about 50 feet and are all in ore of copper pyrites.

The first car of ore from the Montana Mammoth mine, in the western part of the State, has been received at the East Helena smelter, and select samples run upward of \$100 a ton. Shipments of the Aider Gulch spur at present require a haul of four miles.

A. J. Davis of Butte has purchased from James Breen, the Spokane millionaire, nineteen claims in what is known as the Porphyry Dike, south of the city, for \$500,000, it is said. Breen was interested with Heinze in the development of this property, which is a veritable mountain of low grade gold milling ore.

IN THE BLACK BILLS.

IN THE BLACK BILLS.

Dyadwood, S. D., Jan. 15.—Owing to a change that will have to be made, half of the 120 stamps in the big mill of the Branch Mint Mining Company at Galena are not dropping. The Branch Mint, which started only recently, is the largest mill outside of the Homestake plants in the Black Hills.

Production from the property of the Imperial Mining Company in Hald Mountain has been increased and the company is now treating daily between 130 and 180 tons of ore.

It is expected that the new 200 ton mill of the Minnesota Mines Company, controlled largely by Minneapolis capital, will be in operation by February 1. The property is in the Maitland district, near the mill of the North Homestake Mining Company. Sinking will shortly be resumed in the main shaft, which is now down 250 feet, and carried to the 400 foot level. The ore bodies will be developed from the lower depth. The principal veins which have been crosscut on the 100 foot level are 30 and 44 feet wide and comtain ore similar in character to that of the Homestake, the assays running from \$2.80 to \$7 a ton in gold. The mill is operated by electric power.

It is announced that the Omega group in the Unknown camp, five miles south of Pactola in the Central Hills, will resume operations soon. The main ledge, showing gold ore that assays from \$3 to \$5 a ton and is free milling, is 200 feet in width and has been opened by a series of shafts and tunnels. The extent of the ore bodies that have been developed will warrant large operations.

William H. Newschafer. Alexander P. Schloss, Margaret Rewick, at 10-30 A. M. Trial Term.—Case on No. 2401, Will of Hiram H. Lamport, 10-20 A. M. Motions. Trial Term.—Part I.—Clear, Nos. 3862, 512, 5393, 2311, 343, 2566, 3595, 3512, 3534, 3413, 2566, 3585, 3584, 3585, 3584, 353, 3581, 3513, 3513, 3513, 3513, 3513, 3513, 3513, 3513, 3513, 3514, 3515, 3514, 3515, 3514, 3513, 3515, 3514, 3513, 3515, 3517, 3507, 3509, 3509, 3510, 3511, 3513, 3513, 3513, 3513, 3513, 3514, 3517, 3526, 3527, 352 MI CHIGAN.

"Eight miles up the Klondike River the water is syphoned across the valley. The pipe used for this conduit is forty-six inches in diameter and conducts the water from one mountain side to another. The flume crosses mountain side to another. The flume crosses the Klondike River on a huge trestle. "The Guggenheims are working two dredges on Bonanza Creek at present, and I am in-formed that next spring four more will be

on Bonanza Creek at present, and I am informed that next spring four more will be operated.

"The copper deposits in the White Horse district are becoming widely known, and it was announced that the White Pass and Yukon Railroad will build a branch line to the mines that are now producing. This will shortly be opened. According to the present plan, the ore will be shipped to Skagway, where bins are now building and from there to the amelters of Puget Sound.

"To illustrate the stability of the gold mining industry, I recently calculated how long it would take the Detroit syndicate to work out its property near Dawson. If that company operated seven dredges handling 4,000 yards each daily for 150 days each summer it would take forty years to take the gold from the ground comprising the syndicate's concession. Of course, the day of the small miner is passing, although there are many creeks in the territory that have never been prospected. It is now a day for dredging and hydraulic mining."

#### TIN PLATES IMPROVE.

Conditions of Pittsburg Metal Market Generally Better-Furnaces Blown In. PITTSBURG, Jan. 18 .- Tin plate showed the

most marked improvement of the week.
Additional steel capacity to take care of the increased demand for billets for sheets ensued. The Ohio Works, Youngstown, of the Carnegie Company, will start on Monday on billets for the Newburg wire mill and sheet bars for the tin mills the American Sheet and Tin Plate Company is putting in operation. To-morrow this company will start in full tin mill at Wheeling, increasing the total mills The United States Steel Corporation is reported to be operating more than double the umber of blast furnaces it had blowing at mary including the Tennessee furnaces in Alabama.

Middlemen who have made sales of Southern Middlemen who have made sales of Southern plg iron at \$12 Birmingham may have trouble in filling contracts, furnace men say. Some Southern interests are quoting \$13 Birmingham while others hold out at \$13.50. The Northern foundry iron situation is reported better, only two or three interests being willing to quote \$16 on No. 2 at furnace, the majority of Central Western producers holding for \$17 at furnace. Negotiations are brisk for beasemer in this district for delivery over the first quarter. Regular producers are firm on a basis of \$18 valley and \$17 valley for Bessemer. Stocks of both in yards are estimated at 75,000 tons.

Prices on billets and sheet bars are firm, with no sign of being shaded. Beasemer and open hearth billets are \$25 i. o. b. Pitt-burg: sheet bars, \$20 i. o. b. Pittsburg.

Minimum price on plates is \$1 to, the larger mills holding to the advanced those of \$1.70. Prices on shapes are being maintained at \$1.70. Steel bar mills are unoting \$1.60. Pittsburg. Realfrmation of wire prices has thoroughly established this branch and appring trade is expected to come nicely. The prices put out September 3 advancing rates \$1 per ton are maintained. Wire nails are \$2.05 to jobbers in car lots.

Coke operators are quoting \$1.90 to \$2 on standard Connellsville coke on contract for delivery during the first half of the year. The weekly run of the Connellsville region is about 100,000 tons now. pig iron at \$12 Birmingham may have trouble
